

We Are Looking For...

Role: Mid Weight Graphic Designer

Location: Huddersfield, West Yorkshire

Contract Type: Permanent

Salary: £22,500 per annum

Closing Date: Tuesday 5th September 2017

Benefits:

We operate a bonus scheme which is paid to all employees, and is dependent upon hitting record breaking sales months. We recognise that everyone in the business can impact upon this and when we do well, we share the benefit amongst each person equally.

We are a social company and tend to organise events to suit all tastes. You will work with nice people who will help you when required, and will expect the same in return. We will provide you with a multitude of opportunities to learn (both formally and informally) and we will support you in developing your own career with us.

The Role:

We are looking for a Mid Weight Graphic Designer to work in-house with our Brand Project Manager, supporting customer facing marketing activities for B2C and B2B customers.

Reporting to our Brand Project Manager, the graphic designer will be responsible for assisting our design and sales teams by creating inspiring yet highly commercial graphics works.

The department is multi-skilled, highly creative and relies upon the team taking ownership of projects from conception to completion with a high level of autonomy. There will be a continuous stream of work available which can be tailored to your specific skillset or interests.

Typically, projects will include:

- Original content production (Photo & Video)
- Digital & web design
- Design for print including brochures and flyers
- Product packaging and POS
- Client facing proposals
- Mail-shot layouts
- Copywriting & Proposition driven marketing
- Product launches

The role would suit someone with an interest in consumer products, or those who have worked as part of an in house team. An interest in photography or video would be advantageous, as well knowledge of HTML and newsletter creation.

Skills we are looking for include:

- Adobe Creative Suite CC (Photoshop, Lightroom, Illustrator, InDesign essential. Premier Pro, After Effects would be advantageous)
- Windows OS including strong data organisation skills
- Design for print including cost engineering
- Web Design (Front End; HTML & CSS)
- Hand Illustration

Who We Are:

We are an international manufacturing company, producing lifestyle products for the home and hospitality industries. We manufacture under three brands; Adam, Aurora and Corby. This role works across all three brands, each with their own style and criteria, meaning that the work is incredibly varied and exciting.

We sell our products through a multitude of channels, including direct to consumer through our own e-commerce sites, such as fireplaceworld.co.uk. We also support our national and international trade partners and distributors with marketing material for our products.
